FULL STACK DEVELOPER

I am a software engineer with a background in photography. Through my 10 years experience as a photographer, connecting with people was one of the most important aspects of my job. Creating a unique and memorable experience for the client helped me stand out against the competition and increase my client-base with new and returning clients. Being detail-oriented, forward thinking, and an excellent communicator are a few characteristics that I combine with my skills as a full-stack developer to collaborate with others to conceptualize and produce projects.

TECHNICAL & INTERPERSONAL SKILLS

Languages: JavaScript, jQuery, HTML, CSS, JSON, Typescript, Python, Svelte
Libraries and Frameworks: Express.js, Jquery, Bootstrap, Flask, Django, MongoDB
Databases and other: JSON API
Interpersonal skills: Effective communicator, resourceful, problem-solver, self-motivated learner.

TECHNICAL PROJECTS

Mileage Tracker - [Github](#) | [Deployed Site](#)   October / 2023
Python | Flask | Javascript | Svelte | HTML | CSS
Mileage Tracker will make it easier for drivers to keep track of their own miles while making sure they are getting reimbursed the correct amount.
- Developed a full CRUD app to create your own trips to track your mileage.
- Created the ability to calculate a refund amount based on miles traveled and cost per mile.
- Adopted mobile-first technologies like Flexbox to create the app with Responsive design.

Job Application Tracker - [Github](#) | [Deployed Site](#)   October / 2023
 Python | Django | Neon | Javascript | React | React Router DOM | Milligram | HTML | CSS
Job Application Tracker will help keep you organized when on the job hunt by keeping a log of all the necessary information for each application you've submitted.
- Developed full CRUD app to Create, Update, and Delete features.
- Implemented a form-based system to track applications submitted.
- Checkbox and date functions.

Personal Jukebox - [Github](#) | [Deployed Site](#)   September / 2023
Javascript | HTML | CSS | Morgan | CORS | Mongoose | Express
As a user of Personal Jukebox App you can add your favorite albums with additional information such as artist name, year released, album cover, and link to the playlist.
- Developed full CRUD app to Create, Update, and Delete features.
- Provided ability to upload a youtube link / playlist or your personal Spotify account.
- Adopted mobile-first technologies like Flexbox to create the app with Responsive design.

Photo-Assistant - [Github](#) | [Deployed Site](#)   August / 2023
Javascript | HTML | CSS | Express EJS | JSON
Photo Assistant is an app that helps photographers log important information about Wedding Venues they've worked at.
- Developed full CRUD app to Create, Update, and Delete features.
- Created ability to upload images, URL, and comments section.

Starwars App - [Github](#) | [Deployed Site](#)   June / 2023
 Javascript | HTML | CSS
Traverse through an encyclopedia of nearly all aspects from all the Star Wars movie collection,to explore facts about Characters, Vehicles, Starhips, Species, and movie information.
- Developed an app to expand the user's general trivia of the Star Wars movies.
- Connected to outside API using jQuery providing different possibilities to present the data.
- Improved User Experience by creating a loading screen, informing users their request is processing.

EXPERIENCE

Media Manager   12/2018 - 05/2020
Cancer Wellness Magazine | Chicago, IL
- Photographed and produced recap videos of events held by national non-profit organizations for people affected by cancer.
- Created over 50 videos for social media increasing awareness and for those affected by cancer.
- Contributed to increasing the Cancer Wellness' social media followers to 10,000 followers by engaging new audiences with videos I created.
- Managed multiple projects simultaneously while meeting tight deadlines.

Media Associate   04/2018 - 10/2018
CMRJB Workers United Labor Union | Chicago, IL
- Created training videos for 20,000 Union members in the midwest region which created a better onboarding process for new members and unifying the Union across different States.
- Managed the social media accounts and website with daily posts and updated photos in order to educate, solidify, and spread the message and importance of being in a Union.
